Claims 1 to 9 are pending.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 to 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Bohlinger (WO 99/61931). Bohlinger discloses plural permalloy resistors (which read on the claimed runners) on a silicon substrate, with some of the resistors running perpendicular to other of the runners and such an arrangement will provide a sensor anisotropy for at least some of the runners of about 90 degrees.

3. Response to arguments filed 9-11-2006

Applicant contends that Bohlinger uses two different bridges on the same device, rather than having the limitation set forth in each of the independent claims, i.e., that the mechanical length of each of said individual runners is perpendicular to the magnetic wafer level anisotropy.

In response it is noted that the claim uses open language, i.e., comprises, such that the Bohlinger reference just needs to have some of the permalloy resistors (corresponding to the claimed runners) be oriented to provide the 90 degree anisotropy and as some of the Bohlinger runners so indeed meet that limitation, the reference is properly applied against the claims.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
